

## Retail and Leisure

At Nationwide Services, we offer a range of fully managed services on a national basis, tailored specifically to the individual requirements of each retailer or leisure facility.

Everyone's requirements are different and whether you are a national retailer interested in controlling costs and driving up your recycling rates; a hotel or leisure company that requires trade waste collections or a contingency plan for portable heating or cooling hire in the event of your own equipment failure; a supermarket chain or caterer looking for an alternative to landfill for food waste, we can manage this for you on a local, regional or national basis.

We are already working in partnership with some of the largest household names in the UK and we are totally committed to our waste management customers to work towards zero waste to landfill. Our commitment to you is to take the time to understand your exact requirements and by carefully selecting and managing the best available, local solutions to maximise recycling and control costs.

Whatever your waste management or hire requirements, contact our sales team today to discuss how we can help.
