

Building, Refurbishment and Maintenance

Nationwide Services offer a range of services on a local, regional or national basis to builders, refurbishment and maintenance contractors. We manage every aspect of your requirements through a network of trusted, quality supply partners who we have worked with for many years.

We have on average six suppliers of each core service, in every town in the UK and we take on all the administration, account opening and payment issues. This leaves you free to work anywhere in the country knowing that you only have to deal with one contact who understands your requirements and can arrange any equipment or services that you need to get your job done.

As outsourcing specialists, we will always endeavor to source and supply everything you need, whenever you need it.

Contact our experienced sales team today to discuss how we can help.
