

Property Services

If you are an asset, property or facilities manager, a developer or a building surveyor, Nationwide Services have a range of individual and fully Managed Services, developed specifically with your needs in mind. We are outsourcing specialists, working throughout the UK, with a network of quality supply partners. We provide you with a single point of contact, manage each project from start to finish and pride ourselves on delivering reliable and cost effective solutions.

Our services have proved to be particularly useful to asset and property managers who need to clear a site after repossession or where waste has been illegally dumped. We can assist in making a property more presentable for marketing purposes as well as make alterations to the available space to gain maximum value or to suit the requirements of a new tenant. We can also help developers who require demolition or asbestos services before re-development, as well as commercial building surveyors who require a national, cost effective provider of powered access and surveying equipment.

Contact our experienced team today to discuss your individual or businesses needs.
