

## Healthcare and Care Homes

At Nationwide Services, we have developed a bespoke range of services for care home and accommodation providers throughout the UK.

By working closely with providers, we have gained an in-depth understanding of the day-to-day, reactive and planned maintenance requirements of the sector and the role we can play in providing crucial support services in the unpredictable event of power or heating failure.

By managing arrangements with our supply partners on your behalf, we can offer reactive and planned support to care home providers and NHS trusts on a local, regional and national basis.

**What our customers say: Anchor Trust** – We have been using Nationwide Services since 2005 and have always received an immediate response regardless of what we need and where we need it. Their 24 hour, 365 days a year service is a vital requirement for us and Nationwide have never let us down.
