

## Tool Hire

If you need to hire tools for any size or style of project and would like price consistency, quality equipment and an excellent service, look no further.

Nationwide Services supply an extensive range of tools and equipment on a national basis from one point of contact, which means you only need to deal with one company, operate one supplier account and receive one supplier invoice.

Our buying power means that you get value for money and the strength of our supplier relationships with over 1000 hire centres, enables us to provide everything you need, when you need it and remove it from site promptly on completion.

We manage everything on your behalf, including the provision of weekly site-by-site hire reports to help you keep control of your costs. We can also offer on-site support by prior arrangement, to co-ordinate bulk equipment deliveries or clearances on larger projects and check equipment for quality and safety. Whatever you need, wherever and whenever you need it, our dedicated team is on hand to help.
